

FLIGHT DECLARATION

This declaration or an equivalent is required if a Position Recorder is being used (SC3-2.3a).

The last written or internet declaration made before take-off is the only one valid for a given flight.
Warning: some IGC-approved FRs make turn-on time of the FR the declaration time. To avoid problems, turn on the FR *before* the OO signs below.

Declaration date/time

Pilot Name (print)

Glider Type & Registration

FR/PR Type & Serial no.
#1 #2

Start point
Way point coordinates only

TP 1

TP 2
