

Pilots Meeting
Omarama
Nov 20, 2020

- Shall we have and publish and award unhandicapped scores for the Open Class?
- Starting rules (Rule 44b and 44d)
We do (other than for technical reasons) no longer have to radio start times.
So, what constitutes a start?
What if someone never started, but outlanded?
Can you relight after the start window of 3 hours has closed with your start time being the closing time of the start window?
- Comp days
Suggestion: alternating, the SI and the NI should have a cluster of competitions, e.g. the regionals, an enterprise comp and the nationals. That way, the back-and-forth ferrying of gliders is avoided (and hopefully more pilots will attend).
- Reminder: schedule comps such that the last comp day is not a Sunday, as happens to be the case with the 2021 Nationals at Omarama.
